

FEATURES:

This series is 220V automatic voltage regulator, which is a portable LED digital display design. It is servo motor control type with high quality of carbon brush. SVC-M can be both used as desktop and wall mounted one. It is characterized by stable work, high precision output and wide voltage regulation range.

APPLICATION

It is widely used in various industries, small office equipment, refrigerator, electric fan, computer, pump, air conditioner and other household appliances.

Product	Technology	10000VA
Power (VA)		
Input	Phase	Single phase
	Voltage	AC90-240V
	Frequency	50Hz/60Hz
Output	Voltage	AC220V
	Frequency	50Hz/60Hz
	Precision	±3%
	Capacity	8000W
Function	control type	servo motor
	Over/Low Volt protection	yes
	Delaying	yes
	Short Circuit Protection	MCB
	Temperature Protection	yes
	Return Function	yes
	Bypass Function	yes
Efficiency	AC-AC	0.96
Acoustic	Noise level	≤50dB
Environmental	Temperature	-5-60 Degree
	Humidity	20% to 90%
