

GX-2000-PSW

LINE INTERACTIVE UPS PURE SINE WAVE

GX-2000-PSW line interactive UPS uses line Interactive technology and provides a sinusoidal output with power factor 0.8. It ensures a high level of protection against mains power disturbances. When the mains power supply fails, it powers sensitive equipment with a perfectly sinusoidal supply for maximum power continuity and reliability. It is the ideal solution for the protection of peripheral network devices, servers, and network backup systems.
